

CATALOGUE B

## **ORDERING...**

In ordering please mention *amount of money* you enclose, the *catalogue number, name* and *price* of each article ordered, and be particular to write your *name, city, county* and *State* very plainly. Some people are very careless on these points and, although our clerks have become experts in reading bad writing, we are often unable to make out the name or even tell where the party lives. Some forget to sign their names or give complete address, and we are obliged to wait until they complain before we can fill their orders.

**Please send money in U. S. Money Order, Express Money Order, or draft on a Chicago bank. It costs us from 15c. to 25c. to collect drafts on outside banks or personal checks.**

Please write your complete order on one sheet and your letter, if you write one, on an entirely separate sheet. Your orders go to the Shipping Department and your letters to the Correspondence Department.

The foregoing points are easily observed, but careless people often neglect them, which causes errors and delays for which we are in no way responsible. We want to comply with your orders quickly, and your kind attention to small details will aid us very much.

## **FREIGHT...**

We have everything packed and shipped so as to obtain the lowest rates. In considering this item the great point to be kept in sight is that it is an expense that cannot be cut out. Someone has to pay it, and if you buy of a retailer in your own city he not only has to charge you with the freight but his percentage of profit on it also. We will be glad to furnish estimates if desired. The freight on less than 100 lbs. is the same as on 100 lbs. If you can make shipments weigh 100 lbs. or over, you can obtain as low rates as the largest shippers. Freight rates are controlled by the Inter-State Commerce Commission (that is, the United States Government), and there is no way that the biggest concern in the world can get "inside" rates.

## **F. O. B. CHICAGO...**

No charge for boxes, wrapping, packing or hauling.

## **DISCOUNTS...**

We have already explained that our quotations are figured less all discounts for cash, but we can, of course, afford to give a discount on several items shipped to one party. We can ship five items to one party at one time cheaper than we can ship five items to five different parties at different times.

On an order for three of the items in this catalogue we will allow a discount of three per cent.

On an order of five or more items we will allow five per cent.

## **CLUBS...**

You can easily get six or eight neighbors to order one or two items each with you, in order to get their goods delivered to them at the quantity freight rates. They would not be entitled to any quantity discounts, but you would make the five per cent. which would be a neat profit for your trouble, besides your saving in freight.

## **AGENTS...**

We have no Agents, as we have allowed no margin for Agents' commissions. **Do not ask us for agencies.**

## **ILLUSTRATIONS...**

You cannot, of course, see these goods, but we have gone to much trouble and expense to have the items *photographed* and reproduced exactly in expensive half-tones. We believe this will be appreciated by our clients.

For your own benefit see our "Why."

# WHY.

It has been said that there is a large field for more of the "common honesty between man and man." By "common honesty" is meant that wherein the seller gives one hundred cents' worth for a dollar, and that wherein the buyer expects no more. We believe that this "common honesty" is the only true road to success; at least so far as concerns the seller. Should the buyer expect more than one hundred cents' worth for a dollar the seller, if he has been *honest*, can gracefully decline to meet the expectations of the buyer. It is with this fundamental principle we have met success and built up a large business which is still growing.

If we seem to give too much for the money it is not because we are giving poor goods nor misrepresenting them, but rather because the buyer's judgment of prices has been educated up to paying more.

It is not because we give more than one hundred cents' worth for a dollar, but rather because someone else has been giving less.

As our business increases and our list of customers grows larger, we are able to make better terms and larger contracts with the manufacturers, which is always to the benefit of our customers and, through them, is a benefit to ourselves.

In this Catalogue we have made a careful selection of the latest styles and the best and most serviceable values. You can depend on the fact that anything we offer is of good quality or we would not quote it. We absolutely **will not** handle shoddy goods that do not wear. They are simply made to sell and were never worth anything. Furthermore, when you buy through us you know you are getting the latest styles and everything **strictly up-to-date**.

We are "Expert Buyers for Americans" and are located in the center of the trade where we can get you **what you want**, at figures you know are right. The big merchant kings find it pays to have buyers in the centers of trade and fashion. Would it not pay you to have a good buyer in Chicago who reaches not only Chicago and the East, but Europe as well?

We hope to have a large share of your Fall and Winter business, including your Christmas orders from this and our other catalogues that will come along later.

We do not want your money if we cannot please you, and should you buy an article from us do not keep it unless you prefer it to the money.

Our customers are our best reference and our goods our best advertising. Everything must be just as good or better than represented before we ship it out.

Mistakes may happen occasionally, and should you ever find cause for complaint we trust you will kindly advise us and allow us to right the matter.

Awaiting your commands, we remain,

Yours for business,

# \$10.00 THE WRIGLEY TYPEWRITER DESK

NOTHING TO EQUAL IT FOR LESS THAN \$30.00

OPEN

## SOMETHING NEW

FOR THE OFFICE OR THE HOUSE

*The Most Economical Cabinet Made*

**ECONOMIZES** space because it is one of those articles so constructed that there seems to be twice as much room as you expect.

**ECONOMIZES** time because the operator has everything right at hand in proper shape and not all mixed up. We know from personal experience that an operator can do at least 20 per cent more work with less fatigue when everything is properly arranged to run smoothly.

**ECONOMIZES** nerves and health because everything does run smoothly.

**ECONOMIZES** wear on machine because machine is fixed in one place and is out of the dust and dirt when not in use.

**ECONOMIZES** stationery because it does not get familiar with the oil can, etc., nor get scattered all over the office.

**ECONOMIZES** even in first expense because it is \$20.00 cheaper than any Cabinet you can get to fill the bill.

This Cabinet is made throughout of selected oak, carefully rubbed and finished, giving a very handsome appearance. The back is neatly paneled and finished as well as the front. Size: 44 inches high, 30 inches wide and 16 inches deep. Made to hold any machine.

Machine is fastened to an independent base board which is hinged at the back. When machine is not in use it can be tipped up out of the way, leaving a large desk space for enclosing letters or work with the pen.

Interior is pigeon-holed for several different kinds of envelopes, letterheads, papers, etc. There is also a large amount of room for ink well, pens, books, etc. Underneath are two drawers and a large closet for oiler, note book, records, etc.

The price of a Typewriter Cabinet that will not hold as much, is not so nicely arranged nor any better finished, would be \$30.00. A smaller cabinet, and the cheapest one made, would cost \$25.00.

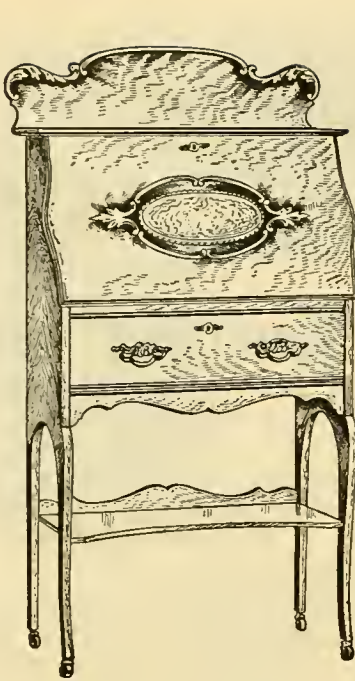

Our Cabinet, fills a demand that has never been supplied. In fact, at our price it is poor economy to do without a Cabinet, as it would not take more than a year or two to knock double the cost of the Cabinet out of your \$100 machine with dust and dirt.

## A BIG DESK AT A LITTLE PRICE.

This handsomely polished, solid oak, or a fine imitation mahogany finish, combination desk and book-case, 4 feet 6 inches high and 2 feet 6 inches wide, has a drop lid with lock, heavy raised carving, ornamental brass railing on top and a brass rod for curtains over the book shelves.

This is one of the most convenient and popular pieces of furniture ever placed in a house. It is to a home what a roll top desk is to an office. When you have had this a month, you will only wonder why you put up with such inconveniences so long, although, to be sure, this desk has never been offered at a price so that anyone who could afford any of the comforts (not luxuries) of life would not want to get along without it. Don't miss this. State whether you wish oak or mahogany finish.

Average retail price, \$8.00

**No. 2042. SIDEBOARD**

Height, 6 feet 5 inches. Size of base, 24x48 inches. Mirror, 17x30 inches.

This Sideboard is made from the best selected oak, thoroughly seasoned; the cabinet work is of the best and the finish first-class. The two top drawers are swelled and project over the long linen drawer; one of the top drawers is lined for silverware, and all drawers have locks and are fitted with solid cast brass handles and escutcheons. The two lower doors are fitted with brass knobs and have patent spring catches. The casters are the best ball-bearing kind. The top of the base is double, with shaped and molded edges. The mirror is the best grade of German plate and beveled edge. The carvings are all *cut*, not pressed, from solid oak and give the Sideboard a very rich, massive appearance. The drawers are so adjusted as to run smoothly, without any sticking or catching which is so annoying, and everything about the Sideboard is made in a thoroughly substantial and workmanlike manner. The finish is our latest shade of antique and is finely polished. This is an exceptionally good Sideboard at a very low price.

**No. 89½. OUR IMPROVED KITCHEN CABINET**

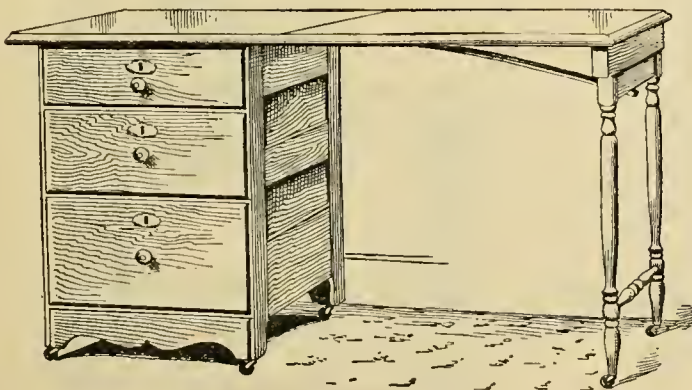

Our Cabinet is made to order for us. It is our own design and has numerous improvements, such as we thought necessary to make a faultless cabinet. We have used only the best of material and employed only the highest skilled labor, in order to produce a highly satisfactory article. Note that the bins are not drawers, but swing on a pivot, and are balanced so as to work as easily when loaded as when empty. Size of top, 28x48 inches; height, 30 inches. It has two large bins, each holding 50 pounds of flour or sugar, or bread, apples or potatoes; two drawers for cutlery, spices, etc.; one large kneading board, 22x24 inches, and one meat board 11x22 inches. The bottoms of bins are made

of the best grade of galvanized iron, which does not rust or tarnish, and they are perfectly tight and can be washed out whenever desired. Finished antique and shipped K. D., thus saving freight, but perfectly easy to put together.

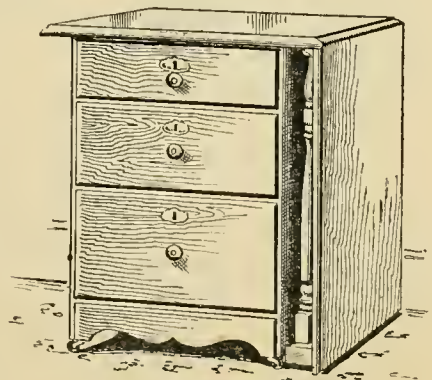

"One-half the housewife's time is spent in the kitchen: why not make it as easy as possible? The labor is not in the baking, but in running to and fro to the pantry and cleaning up flour, etc. spilled on the floor. Have you ever considered this?"

Note the reduced price also. Others ask as much for a cheap flimsy article as we do for a high grade cabinet that is surpassed by none: while for a cabinet to equal ours you would pay at least 50 per cent. more.

**No. 2076. LADIES' COMBINATION SEWING CABINET**

Of all articles of furniture designed expressly for women, our No. 2076 Sewing Cabinet easily takes the lead. This is fully as convenient and complete for this essential branch of woman's work as are any of the fine desks that are built for man's work. It has a very convenient, broad and roomy top 23x47 inches; it is 26½ inches high and is fitted with casters so that it can be moved about easily either when open or closed. The top drawer is 4 inches deep, making a convenient receptacle for thimbles, scissors, needles, pins, thread, buttons, hooks and eyes, and numberless other articles in constant use in the sewing room. The middle drawer is deeper, 5½ inches, being convenient for patterns, etc., and the lower drawer is 7½ inches deep, just the place for the unfinished garments. Each drawer is 17 inches long and 14½ inches wide. On top of the cabinet is a yard measure. The extension leaf when not in use can be dropped down at the side of the cabinet, making a small compact piece of furniture. Each drawer is fitted with a good lock. These cabinets are made of solid oak, finished on all sides alike in our latest shade of antique, and are a most valuable acquisition to any home. A nobby present.

### No. 2136. MAHOGANIZED CHAMBER SUITE

This beautiful curly birch Chamber Suite, as illustrated above, consisting of Bed, Dresser and Commode, is finished natural birch or imitation mahogany with a very high piano polish. We particularly pride ourselves on our mahoganized birch goods. The carving is artistic, very rich and beautiful and each piece is in itself very heavy and massive. The Dresser and Commode have serpentine top double deck and swell top drawers. Dresser top 23x48 inches, with a square French pattern bevel plate mirror 30x36 inches. Trimmings and drawer pulls throughout are of the very best and finest cast brass, highly finished. Each drawer has lock and key and Suite is fitted with ball-bearing casters. For Commode see No. 95. Bed is 6 feet 4 inches high; slats, 4 feet 6 inches. It is neatly and richly carved and the highly hand-polished mahogany finish gives a most striking effect.

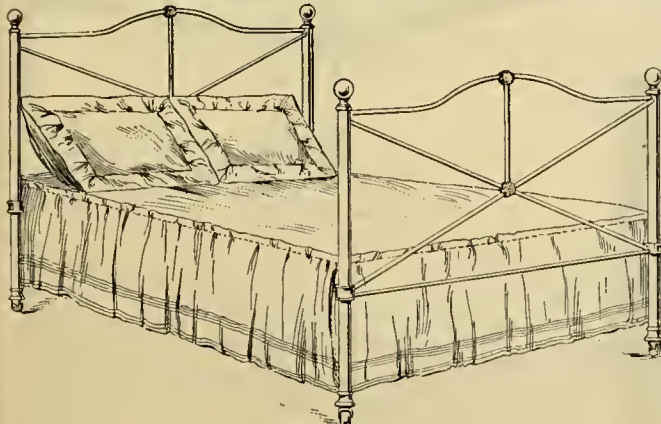

An elegant Set.

### OUR BRASS AND IRON BEDS . . .

are just what are needed to complete the chamber. Stylish, up-to-date housewives won't be without them. Neat, airy, clean, durable and above all vermin proof, they have supplanted the clumsy wood bed.

Our Beds are made so that slats can be used when so ordered. The springs we quote of course fit without slats. If you already have springs that require slats, kindly advise us when ordering and we will furnish the reversed angle iron on the sides. We might state that our angle iron is  $1\frac{1}{4}$  inches, while the usual size is 1 inch. Our castings at the corners are especially heavy and beds are perfectly rigid when put together. Our ornamental castings are very neat in design and worked out in detail. Our enamel is baked on, is of the best, and comes in any color. Where brass is used the best English lacquer is applied. If properly taken care of it should last for ten years without tarnishing. *Never* use any water, soap or acids in polishing lacquered brass; simply a dry cloth.

Our styles are up-to-date, varied and interesting and our prices defy competition. The immense sales we have had in previous years testifies that our prices and goods are indeed world beaters.

Made in two sizes—2 feet 6 inches by 4 feet 6 inches, and 3 feet by 5 feet; pillars,  $\frac{3}{4}$ -inch. Both sides are made to let down, as shown in cut, and latch when swung into position. These Cribs are now made with the spring entirely separate and *not* bolted to the frame as shown in the cut. The spring is the very best woven wire, on an iron pipe frame, and will last a lifetime. It was found that where springs were fastened to the frame and made a part of the Crib, it racked and was not substantial, therefore we have them only with the springs separate. The Crib is made in the very best manner, by the best workmen, with an extra enamel, and brass vases.

#### No. 2186. STANDARD SPRING

The regular standard mattress of the world. Frame made of thoroughly seasoned hard maple; thick batten; perfectly tight joint between end rail and batten. Batten crowning as shown, giving great strength. No putty used. A good, clean spring, which carries with it our quality guaranty. The only low-priced wire mattress, the quality of which has been kept up to standard.

All our woven wire Mattresses have patent end fastenings for the fabric, making it impossible for any of the wires to become loosened by any strain that will ever be put upon them. This is a feature which no other wire mattress in the market has.

We make No. 2186 with side rails set in to fit iron and brass beds without slats. Be careful to mention kind and size of bed.

**Our Price (any size), 95c.** Weight, 34 lbs.

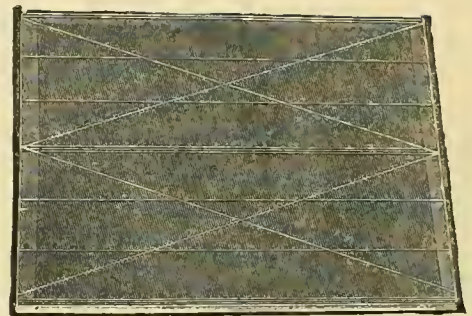

#### No. 110. IRON FRAME SPRING

Sides are of gas pipe and end rails of angle steel, finely japanned. The Spring is of very fine weave, and is supported in the center with an improved coil spring arrangement. It is made expressly for iron beds. No slats are required. This is a Spring of the very highest grade, and for comfort and durability it has no superior.

**Price, \$2.95**

No. 111. Same as No. 110, without the improved coil spring support in the center. Still a first-class Spring, and very satisfactory.

**Price, \$2.25.** Shipping weight, 50 lbs.

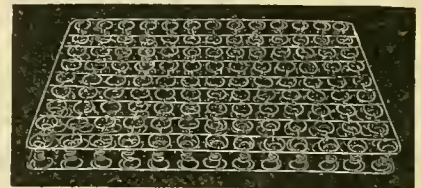

#### No. 2188. WOVEN WIRE MATTRESS

This is a very fine, strong single weave fabric, supported by cross cables as shown in cut. It answers the purpose of a supported wire mattress at small cost.

No. 2188 fits iron or brass beds without the use of slats when so ordered. Be sure to mention kind and size of bed.

**Our Price, \$1.45.** Weight, 4-4 size, 37 lbs.

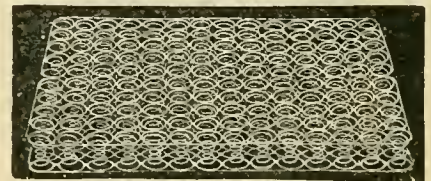

#### No. 2190. SPIRAL SPRING BED

A thoroughly well manufactured all steel Spring, handsomely japanned. We place this Bed upon the market to compete in price with any spring made, while our quality is incomparably better. A good, sound spring. Each full size spring has 117 spirals.

**Our Price (any size), \$1.35.** Weight, 4-4 size, 21 lbs.

No. 2192. Same as No. 2190 but hinged and made to fold, **Price, \$1.60**

#### No. 2194. SPIRAL SPRING BED

No. 2194 is made entirely from double cone springs, standing close together, connected by broad steel clamps of great strength, folds in the center and has heavy border. The top and bottom surfaces are alike. This Bed is elastic and yielding in all its parts, conforming perfectly to the form and weight of the person lying upon it, and is at the same time, from its simplicity and construction, of great durability. The Bed is not an experiment, but an established success. We have extensive preparations for the manufacture of this Spring and it is having a tremendous sale. Each full size Spring has 140 spirals.

**Our Price (any size), \$2.20.** Weight, 4-4 size, 34 lbs.

#### No. 2196. SPIRAL SPRING BED

This Spring is the same as our regular No. 2194 Spiral Spring, but with the addition of woven wire fabric on the top, or on the top and bottom. It folds in the center, all japanned, and the most luxurious and desirable Spring made.

With fabric on top only, **Our Price, \$2.95**

Weight, 38 lbs.

No. 2197. Same as No. 2196, with fabric both top and bottom

**Price, \$3.80.** Weight, 42 lbs.

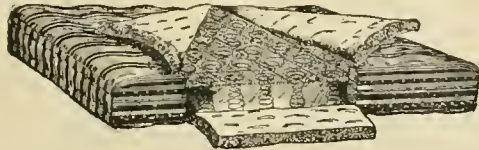

WHEN we remember that at least one-third of life is spent in bed, and reflect on the importance of hygienic conditions during this period of renewal of all the vital forces, it would seem as though too much consideration could not be given to our surroundings during this important portion of our lives.

The Acme Hygienic Mattress is the only self ventilating, pneumatic mattress on the market.

Possibly nothing will repay us better, both in health and enjoyment, than a few moments spent in considering what we sleep on during this particular third of life, and a few dollars invested in an Acme Hygienic Mattress to insure sleep, being strength-restoring and healthful.

LENGTHENS LIFE.

## Acme Hygienic Mattress.

Cut showing construction Patented.

Self-Ventilating!

Pneumatic!

Luxurious!

Healthful!

Better than any \$40 Hair Mattress.

This mattress has for its center a spring section having woven wire top and bottom with 88 steel springs between. This spring center is enclosed and the mattress filling ("ACME" Antiseptic, Non-Absorbent White Cotton) is placed all around it—top, bottom, sides and ends, and the whole enclosed in best ticking, making a beautiful spring and air mattress, which, from the standpoint of health, is invaluable, as it affords a circulation of air through the entire filling. Every time any weight is placed upon the mattress the springs yield, making the air space less and forcing the air out through the filling and ticking, which of course are not air tight. The air in the central space, being forced out by the pressure of the imposed weight of the person using it, is retained sufficiently by the filling and the tick to get as an auxiliary to the steel springs the most resilient force known to science—compressed air, giving a downy and delightfully resilient support to the body. When the weight is removed or lessened, the space immediately enlarges by the action of the springs, and air from the outside is drawn into the hollow central space. We place in this central space a powerful antiseptic which is brought into contact with the air constantly passing through the mattress, keeping it in a thoroughly healthful, antiseptic condition, clean and absolutely odorless.

### PUBLIC OPINION.

We publish here some letters which we value very highly, knowing as we do that the writers possess the confidence and esteem of all who know them. We feel certain their testimony will be regarded as conclusive.

Dr. J. B. Murphy, the Celebrated Chicago Surgeon, Venetian Bldg., Chicago, Ill.

I have had excellent opportunity of observing the practical use of your Acme Hygienic Mattress. For hospital as well as private use "Acme Hygienic" expresses what should be said in its favor. It has been very satisfactory in every way, and I cheerfully commend it.

J. B. MURPHY.

Hon. R. W. Clifford, Judge of Circuit Court, Cook Co., Chicago, Ill.

Your Acme Hygienic Mattress is the most satisfactory mattress I ever used, and I am much pleased with the ventilating feature. It will, I predict, become very popular.

R. W. CLIFFORD.

Washington Hering, late Postmaster of Chicago and Editor of the Illinois Staats Zeitung, Chicago, Ill.

Your Acme Hygienic Mattress, in my opinion, cannot be equalled. It is giving absolutely perfect satisfaction. There is a comfort connected with it that can hardly be explained; an elasticity which is most remarkable. In fact, I may say that I have never in all my life enjoyed such good solid rest and sleep as I have since using your mattress.

WASHINGTON HERING.

"Weights 321 Pounds."

Chicago, Ill.

I weigh 321 pounds and have for the past six months used one of your Acme Hygienic Mattresses, and I cannot say too much in its favor. I am entirely satisfied with it.

PATRICK PHELAN.

### ACME HYGIENIC FEATHERS.

We confidently offer to the public as a result of our efforts what we regard as the fullness of perfection in this line—"ACME" Hygienic Feathers. Feathers have been soaked and poxed and blown hot and cold, but until we undertook it, no effort had been made to render them absolutely healthful in the only way such a result can be obtained, namely—by scientific antiseptic treatment. No matter where feathers have been, no matter what condition they are in before treatment, when they have been subjected to our process they are pure, odorless and absolutely antiseptic, light as air and of billowy softness.

When Shipped with  
other Goods

Everybody knows the reputation of the Bissell Sweepers. The Bissell people are the largest manufacturers of Sweepers in the world, which fact alone testifies to the pre-eminence of their goods. The Crown Jewel contains all the best patented devices that have made Bissell Sweepers famous throughout the world. It has the Bissell broom action by means of which a slight pressure on the handle adjusts the Brushes to any carpet. The tires are vulcanized, not glued on, giving the Sweeper a noiseless, cushionlike action. It saves time, strength and carpets, and is one of the greatest labor savers for women ever invented.

It is made of first-class material throughout. The woodwork is highly polished and well finished, and the metal parts are smooth and nicely japanned.

Securely wrapped and crated for shipping.

### No. 10. A 30 x 60 BROMLEY SMYRNA RUG FOR \$2.15

Our Rug as shown in the photo is one of the famous Bromley Smyrna. It is a woolen rug, 30 x 60 inches, with both sides alike, which makes it equal to two rugs to wear. To any one acquainted with the value of rugs we only need say that ours is a Bromley, made by John Bromley & Sons, of Philadelphia. There are no cheap Bromleys. Ask a dealer the price of a Smyrna Rug and before answering he will inquire whether you want a "Bromley." The name is sufficient guarantee that it will not be shoddy but of first-class materials, elegant design, fast colors and close weave.

You cannot have too many rugs. Where floors will permit, nothing but rugs are used now-a-days. They are "quite the thing," save the carpets, are convenient to handle and clean, and add immensely to the style and comfortable appearance of the house.

A genuine Bromley of this description retails for \$3.50. **Our Price, \$2.15.** You can't miss it. State colors preferred.

Shipped by express when ordered one at a time. Average expressage, 35 to 50 cents. Weight, 10 lbs. Smyrna Rugs come in neat designs and in the following sizes:

## FUR RUGS

We are also able to offer you something interesting in imported Chinese Goat Fur Rugs. They average 33 x 65 inches, and are made of selected skins thoroughly deodorized, nicely tanned and sewed. The tanning alone, if done in America, would cost considerably more than we ask.

They are made in China, where labor is cheap, and shipped in sailing vessels "around the Horn." It requires six months for them to reach New York. This is an item that will last a lifetime, and lend variety and coziness to a room.

Two of them make the finest kind of a robe. They come in gray, white and black, as follows:

**No. 11. Gray, \$1.90    No. 12. White, \$1.95    No. 13. Black, \$2.30**

**No. 2336.** China Goat Skin Rugs, made in designs. The combination of colors are black and white, black and gray, white and gray, or gray and red fox. These rugs are lined and odorless, and handsome enough for any room. State colors.....Price each, \$3.65

## FUR LAP ROBES

Chinese Goat Skin Robes make a durable and very stylish robe. It takes an expert to tell them from the gray wolf, and will wear twice as long. We import these goods direct from China, and are able to offer them at a very low price, within the reach of everyone in need of a handsome robe. Our robes are all resewn, specially deodorized, and extra quality all the way through.

### No. 2370. SOFA BED

This is an extremely comfortable Daveport Sofa with a wide spring edge seat and high spring edge back that can be converted into the most luxurious of beds at a moment's notice. Is a most useful and ornamental piece of furniture for your parlor or sitting room and comes in so handy when suddenly confronted with the problem of lodging more people than you can provide for in the regular way.

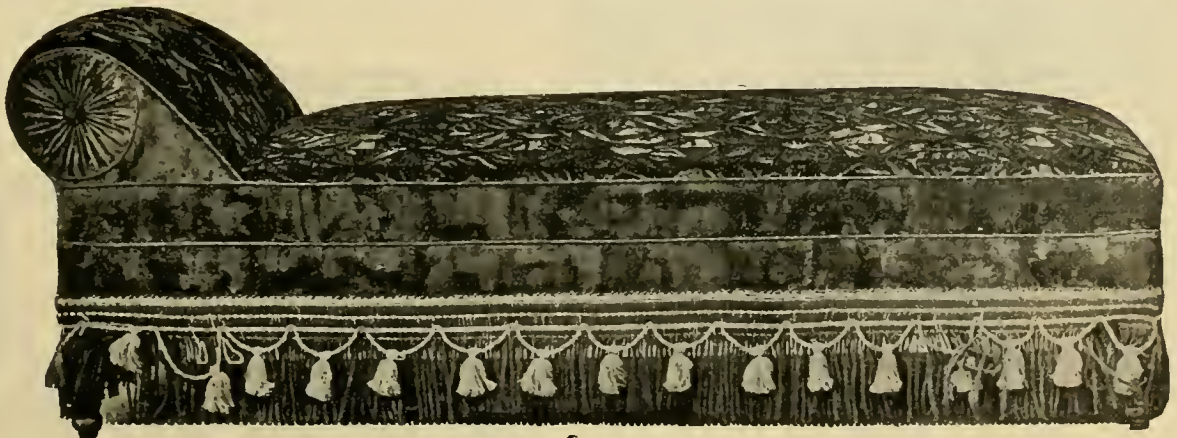

You simply let down the back and you have a first-class bed fitted with a most comfortable box spring mattress with spring edges all around. No numerous rickety, squeaky collapsible sections on doubtful supports and with hard ridges running crosswise and lengthwise to keep you awake, but a mattress that is all in one piece, soft and springy all over and on a most substantial foundation. The woodwork is beautifully figured curly birch, mahoganyized and finished to perfection. There is a spacious wardrobe under the seat, very convenient for storing bed clothes.

Extreme length, 80 inches; extreme width, 53 inches.

# WARDROBE COUCH

CLOSED

Here is one of the most convenient and desirable pieces of furniture ever invented. For keeping dresses and clothes in shape there is nothing to take its place, as they can be laid away without folding. It economizes waste room, and, at the same time, the exterior appearance of Couch is the

latest and richest style (without head). The "Coates" patent adjustment allows the seat to be raised without pulling away from the wall. There are no hinges to come off; it is almost self-opening; will rest at any angle without closing, and is everlasting. There are many imitations of this device but none equal to it. The box has a double end (not shown in cut) which prevents clothes coming in contact with the levers. Box is made in the

strongest manner; lined with cambrie and fitted with ball-bearing casters. The seat is 30 x 76 inches and 20 high; has 36 of the best tempered steel springs; spring edges all around; moss and cotton top covered with imported corduroy or velour; has five rows of tufting, nicely pleated and buttoned; and buttoned on the edges.

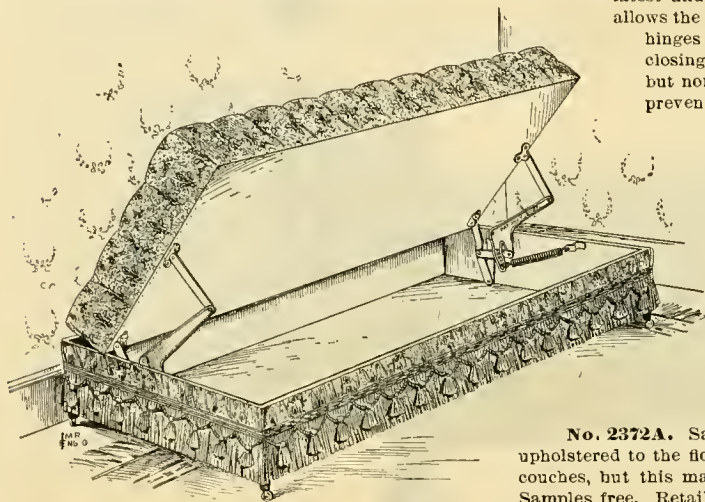

Fringe all around. A couch with a spring edge all around must be very carefully made to last. Our workmanship is of the best only.

The regular retail price of such a Couch is \$25.00.

**Our Price, \$13.35** Weight, 115 lbs.

Covering for pillows to match, 27 inches wide at **95c.** per yard.

Here is a chance for any one with the most moderate means to furnish a parlor complete and make a home look pleasant and comfortable at the very smallest possible expense. There are a great many suites of this description on the market but the majority of them are not worth carting home. The Suite that we show here has some *style* about it; it is built on latest lines, is heavily hand carved, extra strong, and there is beauty in the style of the upholstery. Notice the good taste displayed in the shaping and trimming of the backs—you have seen it heretofore only on much higher-priced stuff. The frames are put together to stay, and can be had either in solid oak or mahogany finish. All seats are fitted with best tempered springs and spring edges. You can have each piece upholstered in a different color. List price, \$45.00 to \$50.00.

back. Lean back as far as you wish and the  
foot-rest and back are always just with you.  
When you have the Chair at the proper angle,  
tighten the adjusting nut with your right hand  
and the Chair is there to stay. Loosen the nut,  
sit up as you would naturally and back and foot-  
rest adjust themselves to fit you, automatically.

Something you can't buy of a retailer, and if  
you could he would charge you double our price,  
or more. When we get out anything new and  
exclusively our own, we do not believe in impos-  
ing a big price because we can get it, but prefer  
to give our customers the benefit, and distribute  
a large number.

Just out. It will add to the tone and comfort  
of any home. Something new and elegant.

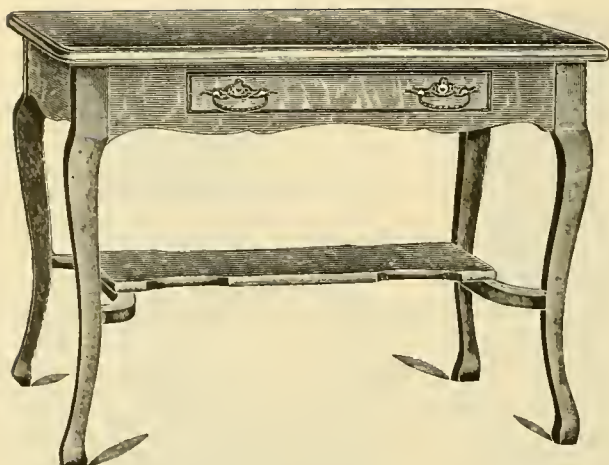

Introduce a new style in your neighborhood  
and be the first to send us your order. Others  
can follow. Be the leader, and not one of the

followers. This Chair is equal in every respect to any \$25.00 chair ever sold.

## OUR No. 2950 WRIGLEY LAMP

Every year we get up a special design in a Lamp, which we contract for in lots of five or ten carloads, and make it special value to be sold in extra large quantities. Every year we seem to do a good deal better than the year before. This is our latest and is good value at \$10.00. It has 100 candle-power burner and central draft, 10-inch globe, brass removable fount, hand-painted decorations and all metal parts finished in gold. The style is "squat" pattern, so desirable this year, and, in fact, it is a triumph of the lampmaker's art. Remember the value you get.

**Our Leader Price, \$2.95**

## No. 2952 CERISE AND No. 2954 MANDARIN LAMPS

These Lamps are made in two colors—the brightest and richest colors used in glass. One is the most beautiful cherry red, and the other "Li Hung Chang's Mandarin." A boudoir lamp is used for ornament as well as light, and necessarily has to be very neat and symmetrical. They have a 6-inch small globe with scroll pattern, and good, round wick burner. In short, they are little beauties.

List price, \$4.00. **Our Price for either Lamp, \$2.40**

## No. 2956. "SQUAT" LAMP

A very fashionable Lamp for moderate price, having No. 3 wick burner and 9-inch globe, the gold finished foot being securely fastened to the Lamp; large hand-painted flower decoration in connection with rural cottage scene.

List price, \$3.00. **Our Price, \$1.45**

## No. 2958. PRINCESS

This Lamp, having the light open decoration on highly finished pure opal glass, is appreciated not only as an ornamental parlor lamp, but in consequence of its having the celebrated P. & A. central draft burner and fount combined, it produces a clear light, which renders it not only useful as a reading lamp, but lights a large room satisfactorily. This is a large cottage lamp, with 10-inch globe, rich gold metal trimmings, highly finished and very neat hand-painted decorations.

List price, \$5.00. **Our Price, \$3.00**

## No. 2960. LIBRARY LAMP

This is really a great combination of purpose and utility—not to mention safety. It supplies the place of a chandelier, and by the use of the patent spring extension attached it can be lowered for use over a center table for reading lamp, or when in place it answers for a highly ornamental parlor extension. It has 14-inch decorated shade and fount, richly cut prisms, gold polished fount and No. 3 burner which gives plenty of light for any ordinary-sized room, and while not extended is entirely out of the reach of children. With all it is a Lamp of many purposes, and, as compared to a parlor chandelier, a very moderate price.

Listed at \$7.00. **Our Price, \$3.75**

## No. 2962. EMPRESS

This Lamp differs from the No. 2958 principally in the decorations, which are perhaps the most desirable to those who wish a real up-to-date article. It is what might be called an individual style. The decorations were executed by one of our most celebrated artists who is known for his originality. The begonia leaf is entirely new this season. Its bright colors shown on green ground, aided by the superior light from the large central draft P. & A. burner, cast a beautiful soft tint to its surroundings—pleasing and restful to the eye. The P. & A. burner receives its draft from the bottom of the lamp and up through its center, keeping it comparatively cool. It is simple in construction, easily cleaned, and makes the softest and whitest flame—free from odor.

Listed at \$7.00. **Note Our Price, \$4.50**

## No. 2964. MAJESTIC

Here is a work of art which speaks for itself, and when displayed for the first time in New York it was highly complimented by the press as the most unique and original decoration presented to the trade this season. Lamp decorators visiting New York made it their business to call and see it. It is nearly three feet high, having a 12-inch globe, an 8-inch gold-finished base, with P. & A. central draft burner. The flower decorations are the largest used. The ground tint is a very rich copper ruby, on which is decorated large, twining tea roses and green leaves, back of which you will notice shadow leaves. A luxury like this could only be indulged in by the rich a few years ago; now they are within the reach of many. The decorations are all hand work, executed by the best artists in the country. The illustration here given is a perfect fac-simile of the lamp in every particular.

List price, \$14.00. **Our Price, \$7.70**

## No. 2966. BANQUET LAMP

A banquet lamp may be regarded in two ways—i. e., it may be used as a parlor lamp and also perform a duty at the festive board. Those who already have a low parlor lamp feel the necessity of a tall, graceful lamp for the table. It has a No. 3 wick burner, 9-inch globe, delicate flowers and tints. It is 30 inches high, a very neat design, and with all we can recommend it for a cheap but elegant and ornamental lamp.

List price, \$3.50. **Our Price, \$2.25**

## No. 2968. IMPERIAL.

This is a peculiar color, known as "cerise." The Romans were able to produce a similar color, but it was lost until the beginning of this year, when it was the good fortune of an American chemist to reproduce it. It is a very soft and pleasing color to the eye, and when the lamp is lit it imparts a rich color to the parlor and draping which cannot be had by ordinary painted globes. This lamp stands 31 inches to top of globe; has a 11-inch globe, and a P. & A. central draft burner and fount. It also has an extraordinarily fine base, all in good proportion and good taste.

List price, \$9.00. **Note Our Price, \$5.40**

**No. 2968A.** Same, but color like **No. 2954.** Same price, **\$5.40**

## No. 2970 and 2972. PALACE LAMPS

The first impression we have from a glance at these two Lamps is that the rage for low lamps prevailing at the present time is fully justified. It would seem that no more could be done to satisfy the most exacting critic, both in the design of the lamp and harmony of decoration. The delft maroon ground with begonia leaves and Chinese yellow flowers makes a beautiful strong effect, while in its mate we offer a lighter effect in turquois ground with arch roses. These two Lamps have received more favorable criticism than anything else presented to the people this season, and are recognized as the leaders of fashionable lamps. They have central draft burners, and gold finished, large bases of a special design. They also have a 12-inch globe, which is the largest made. These Lamps are gems of art and a perpetual treat to the eye. The most surprising thing is that they can be sold for the price we offer.

**No. 2970.** List price, \$18.00. **Our Price, \$11.25**

**No. 2972.** List price, \$18.00. **Our Price, \$10.75**

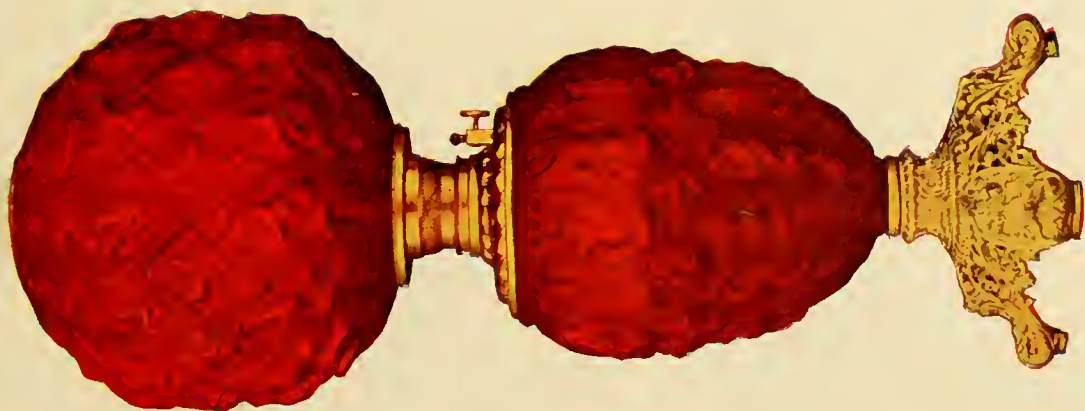

## No. 2974. CONQUEROR

While the low cottage lamps are much in demand, many buyers still insist upon having the tall lamp. Much depends upon the position it is to occupy in the room. Our "Conqueror" Lamp stands 30 inches high to the top of the 10-inch globe; it has the P. & A. central draft burner, and a substantial rich gold finished base, 8 inches broad. The ground finish of the decoration is of the "Rookwood" order, having ornamental magnolia flowers which are relieved with light green leaves. This Lamp presents a very strong, rich appearance and will always be in style as a parlor lamp.

# "MANHATTAN SMOKELESS INCANDESCENT" LAMP

(Patented Nov. 27, 1897)

This remarkable invention marks the greatest advance ever made in the construction of Kerosene Oil Lamps, because it effectually

Prevents Smoke and Odor;

Eliminates all Danger;

makes the use of kerosene for illuminating purposes quite as **convenient and agreeable as Gas or Electricity** and gives much more light than either at about

One Fifth the Cost.

Is the only **INCANDESCENT** lamp burning kerosene without mantle.

It is smokeless and odorless, because it is impossible to turn the wick too high or too low.

The light is turned out like gas; does not require blowing down the chimney to extinguish.

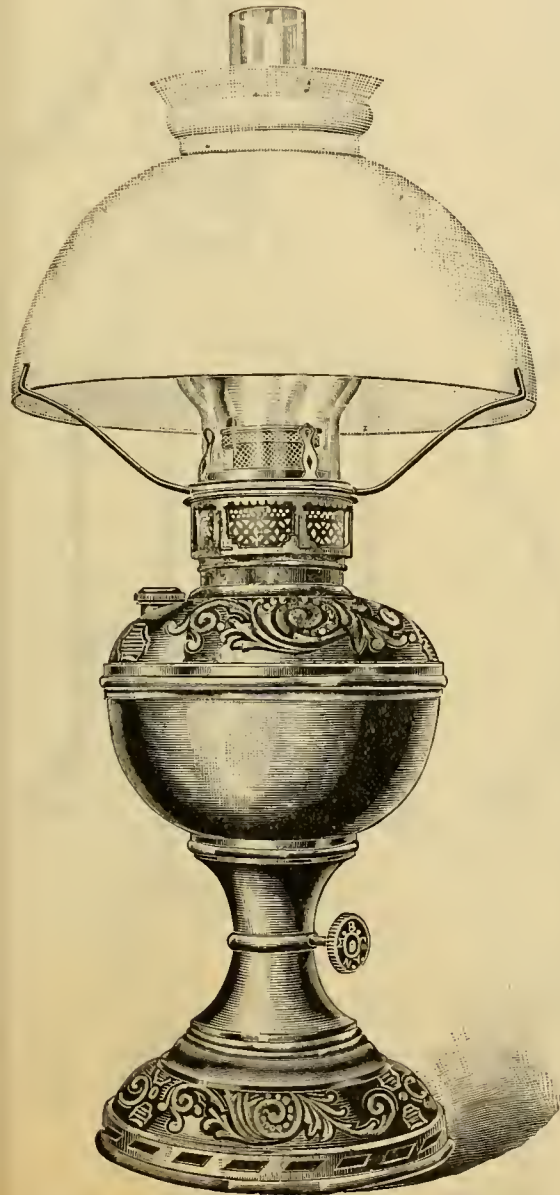

The wick requires no attention, as it is self-adjusting, self-cleaning, and does not burn out.

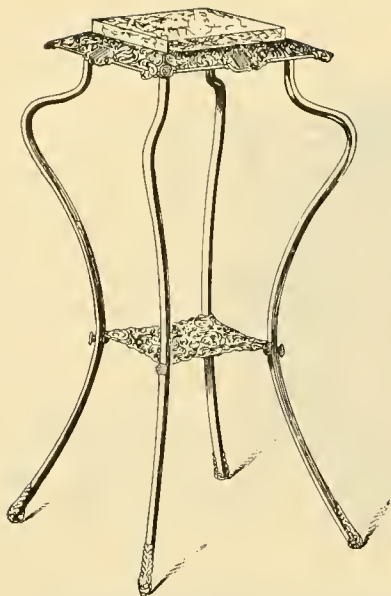

The lamp always has an even flame, the wick being guarded.

Produces 50 per cent. More Light Than Any Other Center Draft Lamp, and Burns Only Half as Much Oil.

Takes all regular fittings, obtainable anywhere.

**Our Price, \$2.55**

**No. 2580.** The picture fails to show the beauty of this Table. It is large in size and the very latest in style. The top is genuine Mexican onyx, beautifully ground and polished. The legs are a very swell hexagon shape brass tubing, and end in feet of a very neat design. The brass parts are all gold finished and lacquered to prevent tarnish. We want to impress the fact that they are brass, not iron.

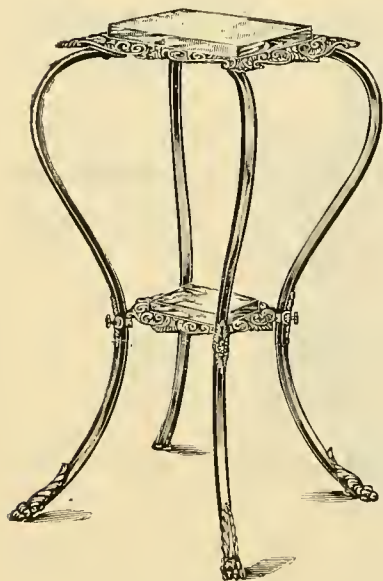

This is a high-toned Table in every detail, fit for any man's parlor and worth \$12.00 in a retail way.

# REED AND RATTAN FURNITURE

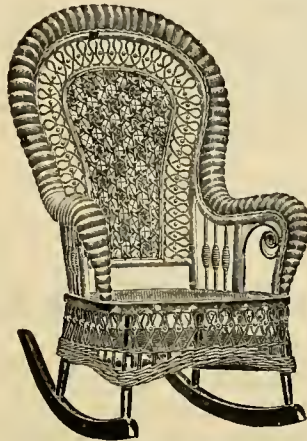

WORKMANSHIP AND MATERIAL GUARANTEED OF HIGHEST GRADE

We need not say much about the style and desirability of this class of goods. No well-furnished, up-to-date home is without a few pieces of reed and rattan. They impart a feeling of light, cool, solid comfort anywhere. Many a house is expensively furnished, yet has a want of taste, and stiff heaviness that is oppressive to even a blind person. We offer some of the most desirable pieces made by the largest and best factory in the world at prices so that no one who aims at a comfortable home can afford to be without them. It is just as cheap to be up-to-date as old-fashioned, if you know how.

A WRIGLEY'S  
STANDARD SCALE AT **\$1.48**

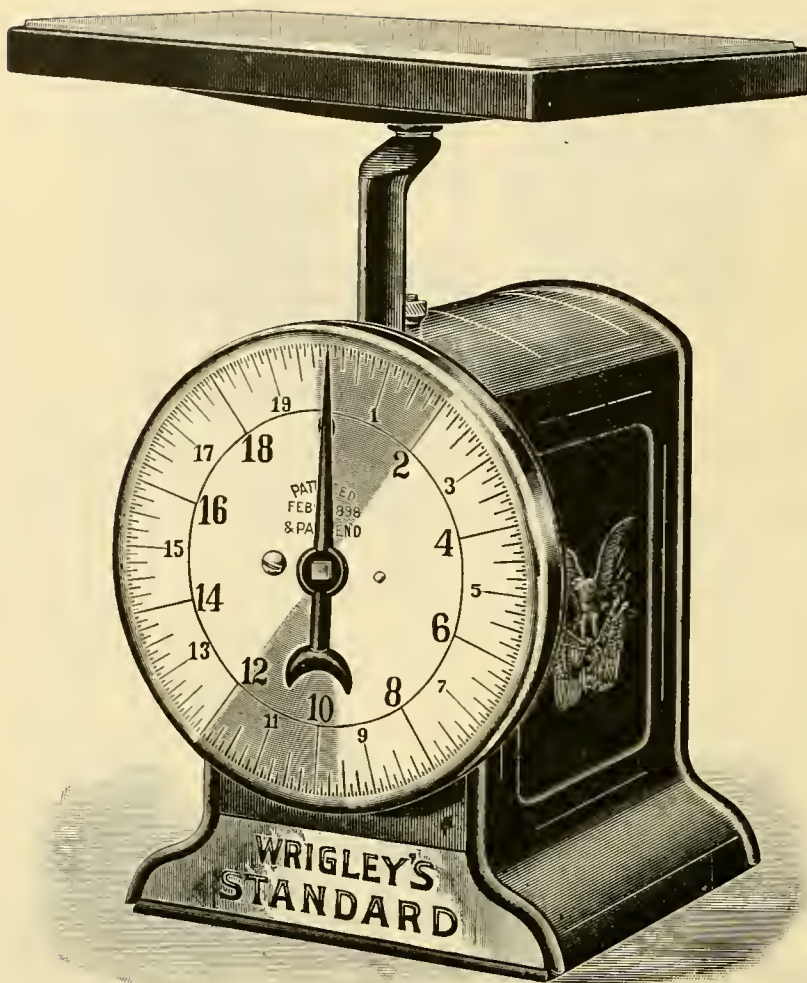

Greatly Improved and Reduced in Price.

Here is a necessity in every house, and yet how few are supplied with a reliable scale?

The Wrigley Standard indicates instantly and automatically the accurate weight and saves much of the time and annoyance of the old style. It weighs up to 22 lbs. by ounces, is made of steel, is unbreakable, has a large brass dial with black figures and an enameled aluminum hand, very light and sensitive. It is instantly balanced by a convenient thumb-screw. The whole is beautifully japanned and ornamented with nickel trimmings. There are none of the old-fashioned weights to get lost. It stands 10 inches high, with a 6x6-inch marble tile top, but is light and occupies little room. This item can be used in a dozen ways every day, and the wonder will be how you have gotten along without it so long. It is invaluable when preserving or cooking and will pay for itself in a month in checking up the mistakes of the grocer and butcher. To be sure you have gotten along without it for years, but how many times have you paid for it in those years? Was it economy, and would you have done so if you had been offered a Wrigley Standard sooner?

A scale of this kind would cost your grocer \$3.75.

**Our Price to you, \$1.48**  
Weight, 12 lbs.

### No. 2808. STANDARD FOLDING WIRE MAT

Unequaled for beauty, strength, durability and efficiency. Both sides of this Mat are exactly alike, smooth and soft to the tread. This Mat, while yielding and pleasant under foot, is the very strongest device that can be made, and will always retain the shape. They are low enough to allow of the opening and closing of any door having a threshold.

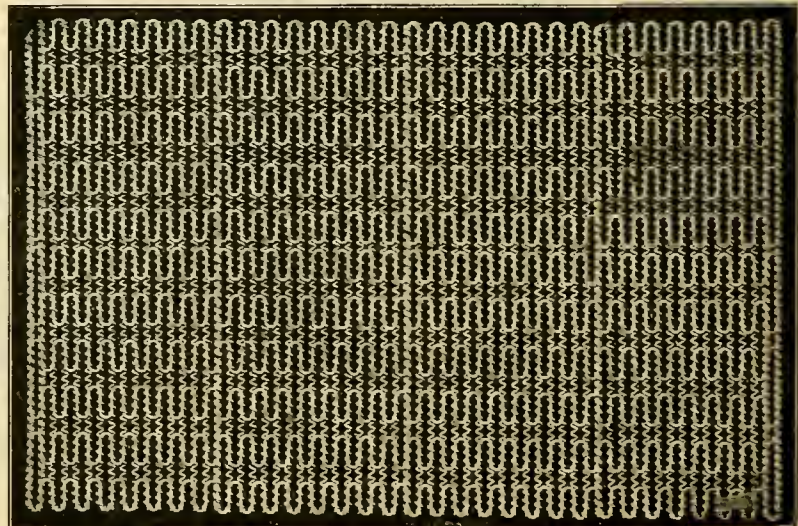

By the use of this Mat every particle of mud can be effectually and quickly removed from the shoes. The texture permits all deposit to fall through and disappear from sight.

Another very desirable feature not contained in other mats is that it can be readily folded into a compact and very neat package, about 5 inches long, as there is a hinge every 5 inches, and being light weight is easily carried.

No matter how badly worn the sole of the shoe, this Mat cleans it perfectly without tripping the wearer.

## THE "Wrigley, Jr." CAMERA

**The Most Complete Camera** of this kind ever put on the market for making pictures 4x5 inches in size: and adapted for either time or instantaneous work.

It is **Very Compact and Light**, the outside measurements being only  $5\frac{1}{4} \times 8\frac{1}{4} \times 7$  inches, while the weight is but 27 ounces. It has accommodation for carrying three double plate holders, so that in this small compass there is everything that is needed for making half a dozen pictures. Extra plate holders can be supplied when desired, so that there is no limit to the number of pictures that can be made in the course of a day's outing.

**The Appearance** of the Camera is very handsome, as it is covered with fine black morocco grain leather. It is fitted with two **LARGE, SQUARE VIEW FINDERS** and two tripod sockets, so that it can be used for vertical or horizontal pictures in the hand or on the tripod as desired.

**The Lens** is of special design for this Camera, and consists of an achromatic meniscus combination that for depth and definition has no equal. It is universal in focus

and works sharp to the corners of the plate, at all distances from ten feet out, no focusing being necessary.

**The Shutter** is a marvel of ingenuity and simplicity and differs from all others in this respect, that it is always ready for either time or instantaneous exposures. In all other styles of shutters when it is necessary to change from one kind of exposure to another a button must be twisted or a lever pushed, something one is apt to forget; but with this shutter all that is needed is to push the button marked with the kind of exposure wanted. Nothing could be simpler.

**For Beginners** it might be as well to say that 4x5 is a standard size of picture, and that plates and other supplies for this Camera can be readily obtained from any photographic supply dealer in the United States, or abroad, a very important point to be considered in purchasing a camera.

**DIRECTIONS**—Each Camera contains full directions for operating, which are simple and easily understood.

**We can Confidently Recommend** this instrument to everyone desiring a first-class camera free from objectionable complications, and have no hesitation in saying that never was such a high grade instrument offered at so low a price.

**Regular Price, \$6.00. Our "SNAP" Price, \$4.50**

Price includes one double plate holder with rubber slides.

## MAGAZINE CYCLONE CAMERA.

THE amateur photographer has been looking for a Camera that would carry in a small compass the necessary number of plates for an outing. We were quick to recognize that fact, and as a result have produced the "Magazine Cyclone" to meet this demand.

This Camera holds twelve plates at one loading; does not require any extra plate-holders, but is complete in itself. It is so simple of construction that it is practically impossible to make the error so common to the beginner.

We have done endless experimenting in order to perfect an instrument that is at once adapted to the use of the youngest amateur, and of so high a grade that the old operator will be entirely satisfied with its results. The plates can be exposed very rapidly, it being possible to take twelve pictures in as many seconds. Being anxious to make this Camera all that a high-grade instrument should be, we have made the different parts of the very best material that could be purchased.

TAKEN WITH A CYCLONE NO. 2.

**Lens.**—The lens is a universal fixed focus, achromatic combination, which for depth of focus and sharpness of definition cannot be excelled.

**Shutter.**—The shutter is always set. You touch the button to expose your picture, and it flies back into position ready for another exposure. There are no levers to turn; merely touching the button does the work.

**The Magazine.**—When you have made your twelve exposures it is only necessary to open the back of your Camera and draw out the magazine, which carries the twelve plates with it, all of which can be lifted off at one motion, being held together by a simple device which releases them readily. As we said before, this Camera is remarkable for its simplicity. To accomplish this we have omitted the multiplicity of buttons and levers, so common to the ordinary hand Camera, which are so liable to confuse and puzzle. The great trouble of the past has been that Magazine Cameras have required unlimited experimenting by the beginner before they could be handled successfully. With our Magazine Cyclones this has been avoided. You can be successful from the start by following the plain and simple directions accompanying each Camera.

### Made in Three Sizes at Following Prices:

## FOLDING CYCLONES

This Camera is without a peer. The finest selected mahogany is used in its construction; it is covered with a fine quality of black grain morocco leather and the metal parts are highly finished and nickel-plated, making a very attractive appearance.

LENS—The lens is symmetrical, made from the best glasses which the world has yet produced, and makes possible the correction of chromatic and spherical aberrations to as high a degree as has yet been obtained in photographic lenses. They are not cheap in any sense of the word, excepting the price, which is very low. In addition to using the very finest glass, the best workmanship is put into their construction. We claim they are as fine as it is possible to make a lens on a symmetrical plan, and are anxious that you compare them with the lenses of the same style of any other make, regardless of price.

## WE HAVE SECURED A FINE LINE OF MACKINTOSHES ..

From the largest and oldest manufacturers of fine Mackintosh garments, who, knowing our vast distributing facilities, and that no quantity is too large for us when prices and quality are right, have offered us terms that cannot fail to please you. Our many customers can absolutely rely on receiving the best class of high grade garments at the lowest prices ever offered. We are only restricted in one particular: we are not allowed to mention the name of the factory on account of the difficulties it would create if known to the trade. We offer you the cream of their line.

**STYLES.**—Remember that the Single Cape is the correct thing.

**MEASUREMENTS.**—**Ladies**—Give bust measure and length from collar to end of skirt in back.  
**Gents**—Give chest outside of coat.

# SPEND 98 CENTS AND KEEP OUT OF THE WET

No. 155

**No. 155.** No more packages dropped in the mud. No more injured tempers while boarding a car or going through doors during a rain. The most simple and practical device in umbrella merchandise ever produced. Our new storm-resisting, self-closing frame; made with eight double curvature steel ribs, heavy steel rod, selected Congo handle and self-closing patent spring appliance. The cover is the best English Helvetia cloth, with silk case and tassel. Press spring upwards slightly with the thumb and the umbrella closes instantly. There is nothing intricate to get out of order, but a strong, simple, practical and most valuable device for convenience and comfort in carrying a rain shedder, at less than the usual cost of the old style umbrella.

The illustrations show the neat appearance when closed, also the interior of frame-work when raised, with thumb resting below spring button, which is entirely out of the way of accidental closing.

They are going by the thousands and taxing the output of the factory to the limit. We give you double value and guarantee satisfaction.

**Price, 98 Cents**

## EVER SEE OUR PAINT CATALOGUE ?

If not, please request us to send you a copy. It will give us pleasure to do this, and you will feel repaid for the effort. A postal card secures it. Shows eighty (80) different shades of paint, divided in seven (7) classes according to adaptation. We show House Paints, Barn and Roof Paints, Buggy Paints, Floor Paints, Implement Paints, Enamel (hard gloss) Paints, and Colored or Graining Hard Oils, all in one pamphlet accompanied by prices and full details. Compare this with the ordinary sample cards usually sent out and see if we are not the people. Remember that in buying our Paints you do not obtain ordinary "made to sell" goods, but the very best that experience, money and the most complete facilities can produce. Everything we offer in Paints represents the maximum in quality and the minimum in price; and remember that good paint, properly applied, is not a mere luxury, as it always saves much more than it costs.

## LOOK AT THESE PAINT PRICES

The chief he views his dose of paints heaped high;  
He notes the colors mounting to the sky;  
He falls o'er heaps of lumber, and he swears  
He'll throw the whole caboodle down the stairs.  
But calmer thoughts prevail. "I'll spread," says he,  
"My catalogue of paints from sea to sea."  
And lo! the people came with gold galore,  
And Wrigley's Paints now shine from shore to shore.  
Of brushes our counters are full,

## SILVER-PLATED TABLE WARE

The artistic merit of these goods has attracted the attention of the most exclusive dealers in sterling silver, and they have received the highest compliments from good judges who have examined them. These judgments have been formed not only from a purely artistic point of view, but also on account of the refined up-to-dateness and good taste shown in selecting the ornamentation.

We might make a great many general statements about this beautiful line of tableware, very flattering and all entirely true, but the person who to-day buys a set of spoons or knives or forks wants to know **facts** about them. So facts are what we give people below. Note the details carefully, then look at the price, and you will realize the magnificent bargains we are able to offer our clients.

1st. The base metal is pure white nickel-silver, the best known metal for plated ware. Nickel-silver is often used without plating as a substitute for solid silver.

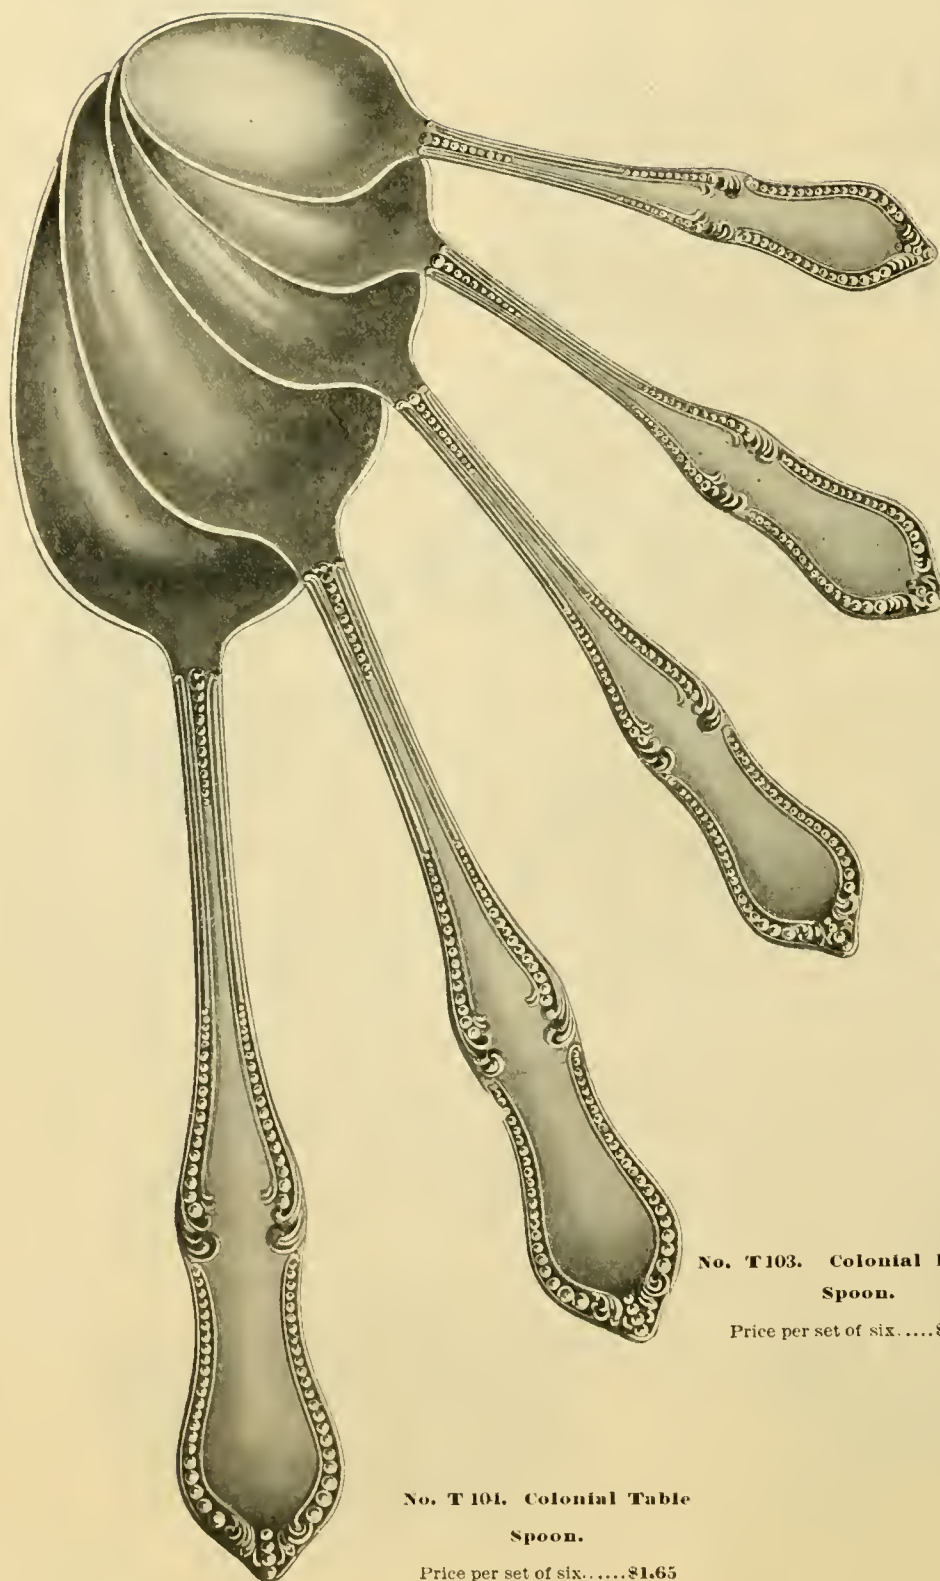

2nd. Over this metal is deposited, by the latest and most scientific process of electro-plating, the regular  $2\frac{1}{2}$  ounce plate of **pure silver**.

3rd. The pattern is the very latest, and, being a rich but simple design, will always be admired.

4th. The finish is the very best, being equal to solid silver.

The name **N. F., 1877**, which is stamped on each article, has been used for a generation and is in itself a sufficient guarantee for the quality of the goods.

# These are Exciting Times.

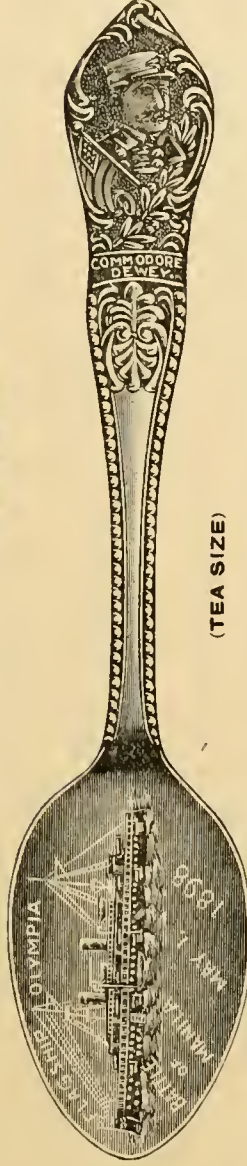

Our Uncle Sam is engaged in one of the most important wars of the century. It will be far reaching in its international effect and in years to come will be considered as marking a great epoch in our history. It is a naval war and souvenirs of the "Maine" and Manila will be of immense value when it is all over. Our "Maine" and Manila spoons are unique and handsome. They are heavily plated in the rich Sterling Silver effect.

The "Maine" spoon is engraved on the bowl with a picture of the Battle Ship and date on which she was blown up by the Spaniards. On the handle is an embossed picture of Captain Sigsbee.

(COFFEE SIZE)

The Dewey spoon has Admiral Dewey's picture on the handle, and Flagship Olympia with date of battle on the bowl.

(TEA SIZE)

We have either spoon in two sizes (tea and coffee) at the same price. They are retailing for 25 cents each. **OUR PRICE--10 Cents each; \$1.00 per dozen.** We pay the postage.

In ordering state whether you wish Maine or Dewey, and which size, also how many of each. Otherwise we shall take the liberty of making selections for you.

## READING TABLE,

or may be used for any purpose for which a strong table may be desired. This modern drop head cabinet high grade sewing machine is a most desirable combination of the useful and ornamental. The folding machine cabinet is its own support, and can neither project nor protrude from the room itself. It is a perfect illustration of the idea of improvement in our new *Drop-Head Folding Cabinet* we not only give you protection to your machine, but in addition give you a perfect reading table, and a most desirable modern home—a perfect table. For a reading table nothing superior can be desired. The *solid, substantial stand* makes it a perfect reading table, and a most desirable machine. You want around which the children can gather for pleasant study.

The *folding Cabinet* does not interfere with the sewing machine when used in its proper capacity. It is compact, simple and elegant in design, and the cabinet is raised and lowered in use the head is in the same position as on a regular stand, fastened with thumb-screws to drop-board, and the latter is firmly supported from the under side. When through using the machine, the cabinet is folded down, and the machine is in an important still, "mending fingers" (as shown in illustration closed). With one motion of the hand the extension leaf folds over and forms a handsome table, with a highly polished top. It is a perfect family sewing machine, and a most desirable and ornamental piece of furniture.

NOTICE.  
That this fine modern Cabinet Machine costs but a trifle more than a regular stand.  
WE WARRANT IT TO PLEASE.

## LEADING FEATURES.

**AUTOMATIC BOBBIN WINDER.**—So simple that a child can easily operate it—winding the thread automatically on bobbins as evenly and regularly as the thread on a spool, also a device whereby the bobbin can be wound without running the thread over the spool, thus saving time and avoiding the trouble of unthreading and removing work and attachments while the bobbin is being filled.

**FEED MOTION.**—Our latest patent, absolutely positive, gyrating movement operated on ball bearings. (See cut.)

**THE DOUBLE 4 MOTION DROP FEED.**—Extends on both sides of the needle and permits a greater variety of work than any other. It has great power, and never fails to perform its duty. It is simple, strong, and gives perfect results in precision, and will cross seams and hand places without changing length of stitch, or missing stitch.

**STITCH REGULATOR WITH SCALE.**—Showing number of stitches to the inch, located on bed plate directly in front of upright arm, out of operator's way.

**A SPRING TENSION CYLINDER SHUTTLE.**—Holding a bobbin that carries a large amount of thread. There is no need of winding the thread on the shuttle. The thread on the shuttle in use. The tension may be changed without removing the shuttle from machine.

**NEEDLE.**—Self-Setting, Short Blade, large shank, and is not easily broken.

**LIGHT RUNNING.**—On account of the simple mechanical devices employed in its construction, runs lighter and with greater speed than any other machine, and is almost noiseless.

It is the simplest, *Existent Operated*, best made and most elegantly ornamented machine in the world, combining every requisite to produce a perfect machine.

Inviting a practical test of this machine, we distinctly claim for it superiority in every particular, and in its performance. It is unquestionably the most popular machine in the market.

**WOODWORK.**—(Black Walnut or Antique Oak), unique and attractive in style, and substantially made from well-seasoned and carefully-selected material. Its elegant finish and rich workmanship of the machine.

Far more handsome and ornamental than the ordinary style of woodwork, it is at the same time of equal durability, utility and good finish.

**STAND.**—Mounted on Nickel Plated Casters, Driving Wheel and Treadle hung on adjustable case-hardened center, insuring great wear, making the most perfect stand ever invented.

**WARRANTED FOR 10 YEARS.**—The only Sewing Machine made that is warranted for 10 years.

## WE CLAIM

FOR THIS

# Sewing Machine

THAT it has been improved and simplified in all its details by the best mechanical talent in America, who, with unlimited resources at their command, have combined only that which is practical, and have dispensed with all complicated surroundings generally found in other machines.

It is the *Simplest Machine*, having the *Fewest Parts*, all *Strong* and with *Case-Hardened Bearings*. Being free from complication, it is easily cared for, never gets out of order, and is always ready for use. The most inexperienced can readily manage it. It has all the modern appliances and conveniences that go to make up the sum of excellences. We have successfully combined . . .

**SIMPLICITY, DURABILITY,  
RELIABILITY, SPEED,  
STRENGTH AND BEAUTY,**

*Producing a Machine unequalled for ease of Management and capacity for Wide Range of Work.*

Uses a Straight Self-Setting Needle, and makes the double-thread "Lock-Stitch." It is the perfection of mechanism for

**HEMMING, FELLING, BINDING, CORDING, BRAIDING,  
QUILTING, TUCKING, RUFFLING, GATHERING,  
HEM STITCHING, SEAMING, ETC.**

It is adapted to every variety of sewing, from the lightest muslin to the heaviest cloth, and will do a greater range of work than any other machine, and is **Warranted for 10 Years.**

ALL MACHINES HIGHLY NICKEL PLATED.

## A \$65.00 Sewing Machine AND A \$10.00 Silver Tea Service FOR \$20.20

**WE OFFER this handsome Four-Piece Silver Tea Service FREE**

with each Model 1 H WRIGLEY Drop Head Sewing Machine. The style of a machine

that everyone wants. Why do we make such a seemingly impossible offer? Simply because our goods are our best advertising and our customers our best reference. We figure we make five friends every time we give away a Set. If we give away 15,000 Sets we will make 75,000 friends who will have a good word for us. In order to be able to make such an offer we were obliged to buy several thousand Sets and contract for material for as many machines.

The Set is guaranteed plate, satin finished and engraved body and handles, and burnished in the stylish "sterling" effect above the shoulder. You will be agreeably surprised when you see it.

The machine is our best and most improved model; strictly up-to-date in every point and piece, and

**WARRANTED FOR TEN YEARS.**

It has a high arm, automatic bobbin winder, our latest patent gyrating feed motion, "double 4" feed (extending on both sides of needle and making it possible to do work that is impossible with other machines), patent device for regulating the number of stitches to the inch, spring tension self-threading shuttle holding a large bobbin, self-setting stout non-breakable needle, light running (on account of simplicity of construction, it runs lighter and with greater speed than any other), it is almost noiseless and arm, bed and frame are heavy enough to prevent that vibration so annoying in some machines, but at the same time of a neat design. Cabinet work of the best oak, highly finished, and iron frame is the best we could design, mounted on casters. All steel and iron parts are finely japanned. Every piece is carefully made of the best known material and every bearing correct and scientific.

Every imaginable attachment free with each machine: Instruction book, two screw-drivers, oiler, six bobbins, gauge, hemmer and feller, one dozen needles, shuttle, tucker, ruffler with slurring plate, hemmer set (four widths), braider and thread cutter.

**WE CLAIM** to make the best machine in the world and substantiate our claim by giving a 10-year guarantee that guarantees.

Terms: In order to take advantage of this offer, cash must accompany the order. If after trying the Machine 30 days you are not satisfied return it to us, with Silver Service, and we will refund your money.

If you would rather have the Machine shipped C. O. D. than to have the Tea Set, send us \$2.00 with your order as an evidence of good faith and we will ship C. O. D. on trial **without the Tea Set.**

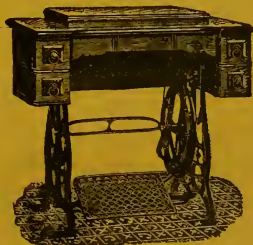

You can have this elegant Silver Tea Service if you have confidence in our ability and willingness to do as we agree.

Take our word for it and if it isn't right, we will make it right.

**SEND US \$20.20 AND YOU NOT ONLY GET  
THE BEST MACHINE MADE BUT A \$10.00  
SILVER SERVICE BESIDES**

out of the way of dust and ready for use as a lamp stand, sewing table, etc. No one wants the old-fashioned kind when they can afford a Drop Head Machine.

#### No. 242. FAMILY SOLDERING KIT

Many a tea kettle has a hole with a rag in it which does not indicate a careless housekeeper. It merely shows a want of tools for mending. The hole continues to rust and grow until the vessel is worthless. The lease of life on tea kettles, coffee pots, boilers, etc., can be doubled by simply a touch of solder on sight of first symptoms of decay; which would be strictly in keeping with the principles of thrift and economy that make well-to-do people. We don't furnish the holes, but we have practical economy in our soldering set.

Outfit No. 242 contains: one soldering iron with handle, one bar solder, one bottle soldering fluid, one box rosin and directions for soldering.

**Price, 30 Cents**

#### No. 239. BLACKING OUTFIT

Size,  $3\frac{1}{2} \times 4\frac{1}{2} \times 15$  inches.

Weight, with contents, 8 lbs.

**No. 239.** The most perfect blacking outfit invented. A folding cast metal cabinet of artistic design, beautifully finished in electro-copper and Berlin bronze. Fastens to a wall or door casing, and contains all the requirements for blacking gentlemen's, ladies' and children's shoes. Opened for use it projects 15 inches from wall, terminating at its free end in a secure foot rest, capable of sustaining a weight of 150 pounds. Can be located at any convenient position from the floor, and is not dependent on extra braces or supports.

Contents: one first quality bristle brush, one best metal dauber, one box fine French blacking and screws for fastening into position.

For compactness, convenience, design, durability and moderate cost, these cabinets have no equal in the world.

Boston bronze, with contents, **Price, \$1.20**

**No. 240.** Same cabinet, without contents, **Price, 85 cents**

#### No. 243. FAMILY HARNESS MENDER

Something needed wherever there is a harness. "A stitch in time saves nine." Catch a stitch when it first begins to rip and save your harness, your time and perhaps an accident. It will also save many a useless trip to the harness shop.

Outfit contains: one large strong lever clamp, one harness awl handle, one harness awl, one round punch, one rivet set, one ball thread, one ball wax, one package needles, one package mixed copper rivets and burrs. Securely packed in a wooden box with hinged lid.

**Price, 95c.** Weight, 10 lbs.
